WEEKLY UPDATE

January 20, 2021

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. Since the onset of this virus, we have had 39 resident and 23 staff members test positive for COVID-19. 21 staff members have recovered. We have no cases of COVID-19 among our residents currently. We are continuing the process of mass testing of the staff which has been mandated by CMS and HHSC.

As you have probably heard, the CDC recently announced that healthcare workers and long-term care residents would be among the first group of people to receive the vaccine for COVID-19. We are optimistic this will help stop the spread of this virus in our community. We had our first administration clinic on January 10, and we will have our second dose administered on February 2, 2021. In the meantime, please join us in continuing to do our part in limiting the transmission of COVID-19 by wearing masks, washing your hands and keeping a safe distance from others.

As always, we are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly (903) 482-6455.

Sincerely,

A handwritten signature in black ink, appearing to read "John Dohlman", with a long, sweeping underline.

WEEKLY UPDATE

January 6, 2021

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. Since the onset of this virus, we have had 39 resident and 23 staff members test positive for COVID-19. 21 staff members have recovered, and the remaining staff are quarantining at home. 18 residents have recovered so far, and many did not experience any signs or symptoms. We are continuing the process of mass testing of the staff which has been mandated by CMS and HHSC. We will continue testing next week. We currently are pausing visitation as we work to verify that no further spread of COVID-19 occurs.

As you have probably heard, the CDC recently announced that healthcare workers and long-term care residents should be among the first group of people to receive the vaccine for COVID-19. We are optimistic this will help stop the spread of this virus in the community surrounding us. Consents for the vaccines are currently available and the first clinic of vaccine administration will be 01/10/2021. Please continue to do your part in limiting the transmission of COVID-19 by wearing masks, washing your hands and keeping a safe distance from others.

As always, we are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering.
