Christmas Holiday Update

December 23, 2020

Dear Residents and Families/Representatives,

With Christmas and New Year's Eve around the corner, we would like to send you and your loved ones the warmest of holiday wishes. We know how difficult it is to celebrate this time of year without the same traditions we have all grown accustomed to, but with the COVID-19 vaccine becoming a reality in the very near future, we are more hopeful than ever that 2021 will bring happier and safer times for everyone.

As always, we are extremely grateful that you have entrusted your loved ones to our care and we are making every effort to provide our residents with wonderful holidays. We are giving presents to each of them on Christmas Eve, and there is a planned reindeer hunt where the staff will dress as reindeer and the residents will try to shoot them with nerf guns. Visitation is still restricted as we have not received approval from Texas HHSC as yet, but we are planning to get video calls made during the holiday weekend. For those scheduling time to do a closed window visit, you will find they have been decorated with holiday spirit.

Also as a reminder, our cumulative number of cases to date are as follows: 39 resident and 22 staff members have tested positive for COVID-19. Our regular weekly updates will resume next week and we will continue to update you on our website if we receive notifications of new confirmed cases of COVID-19. As always, if you have any questions or concerns please contact us directly (903) 482-6455.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

On behalf of the entire staff at Meadowbrook Care Center, I wish you a happy and safe Holiday Season.

Sincerely,

A handwritten signature in black ink, appearing to read "John Dohlman", written over a horizontal line.

John Dohlman,
Administrator
